

NSA ILS IPT
OUTBRIEF
FLSIC CONFERENCE
16 MARCH 2000

ED CHERGOSKI
SEA 04L411

NSA ILS IPT

- NAVSEA in response to Fleet NSA ILS concerns (messages below) established an NSA ILS IPT
 - COMNAVSURFLANT 172130Z DEC 99
 - COMNAVSURFPAC 082034Z OCT 99
 - COMNAVSURFPAC 010057Z NOV 99
- Co-chairs Rosemary Travis (NSLC FSO JAX ND 45) at (904)270-6304 Ed Chergoski (SEA 04L411) at (703)602-8018 ext. 338
- NSA ILS IPT first meeting was held on 14 March 2000
- SEA 04L411 in coordination with NSLC Mechanicsburg has established a web-site to post NSA ILS IPT information

<http://www.nslc.navsea.navy.mil/NSLCPROD/nsails.nsf>

Results-Phase I

- Logistics Review Team to SUPSHIP San Diego and to SUPSHIP Jacksonville Det Ingleside
- Review overall ILS operations, processes and procedures

Results -Phase II

- Teams were established to discuss the following areas:
 - Policy and Procedures
 - Organization and Resources
 - Assessment and Metrics

NSA ILS IPT Teams

- Teams Include representatives from the following organizations
 - TYCOMs
 - SPMs
 - NSAs (SUPSHIP/PY)
 - SEA 04
 - SEA 04L
 - SEA 04X
 - CDMs
 - OTHER

Policy and Procedures

1. Determine current directives pertaining to NSA CM/ILS responsibilities (30 days)
2. Evaluate Directives
 - Develop Questionnaire to be provided to NSAs to identify their existing core working environment (2 weeks)
3. Determine impact of different NSA missions (2 months)
 - Mission funded or Reimbursable

Policy and Procedures

- Construct “As Is” model in conjunction with Team 2 (Organization and Resources)
- Identify benefits and deficiencies

4. Determine NSA ILS functions for the future based on Interoperability and FMP process (2 months)

- “To be” Model

5. Recommend updates to Policy and Procedures (TBD)

Organization/Resources

1. Develop and Disseminate matrix of CNO Availability identified core capabilities/capacities by NSA, Ship Class and Region (3 months total)
 - Functions and responsibilities identified by activity
 - Identify shortfalls and redundancies
 - Functions
 - Funding Source

Organization/Resources

2. Develop recommendation for corrective action (FMP Policy and funding) (1 month)
3. Report out to the NSA ILS IPT

Assessment/Metrics

1. Verify existing mapping of the Availability process as it applies to ILS (2 months)
2. Identify proposed process changes (2 months)
 - Investigate AIS Solutions-NDE, etc...
3. Follow up Assessment (2 months)
 - Track all logistics requirements for ALTS (specifically ALTs with incomplete ILS)
 - Review existing SPM/NSA metrics

In Summary

Phase I (Complete)

- Site visits to SUPSHIP San Diego and to SUPSHIP JAX DET Ingleside
- Review overall ILS operations, processes and procedures

Phase II (In Process-ECD 1 Oct 00) NSA ILS IPT

- Examine the entire NSA ILS support operations, processes and procedures
- Identify systemic problems, assessing the causes and proposing solutions
- Act on opportunities for systemic process improvements at reasonable cost.
- Working Groups to meet every 30-60 days
